

BluePaper

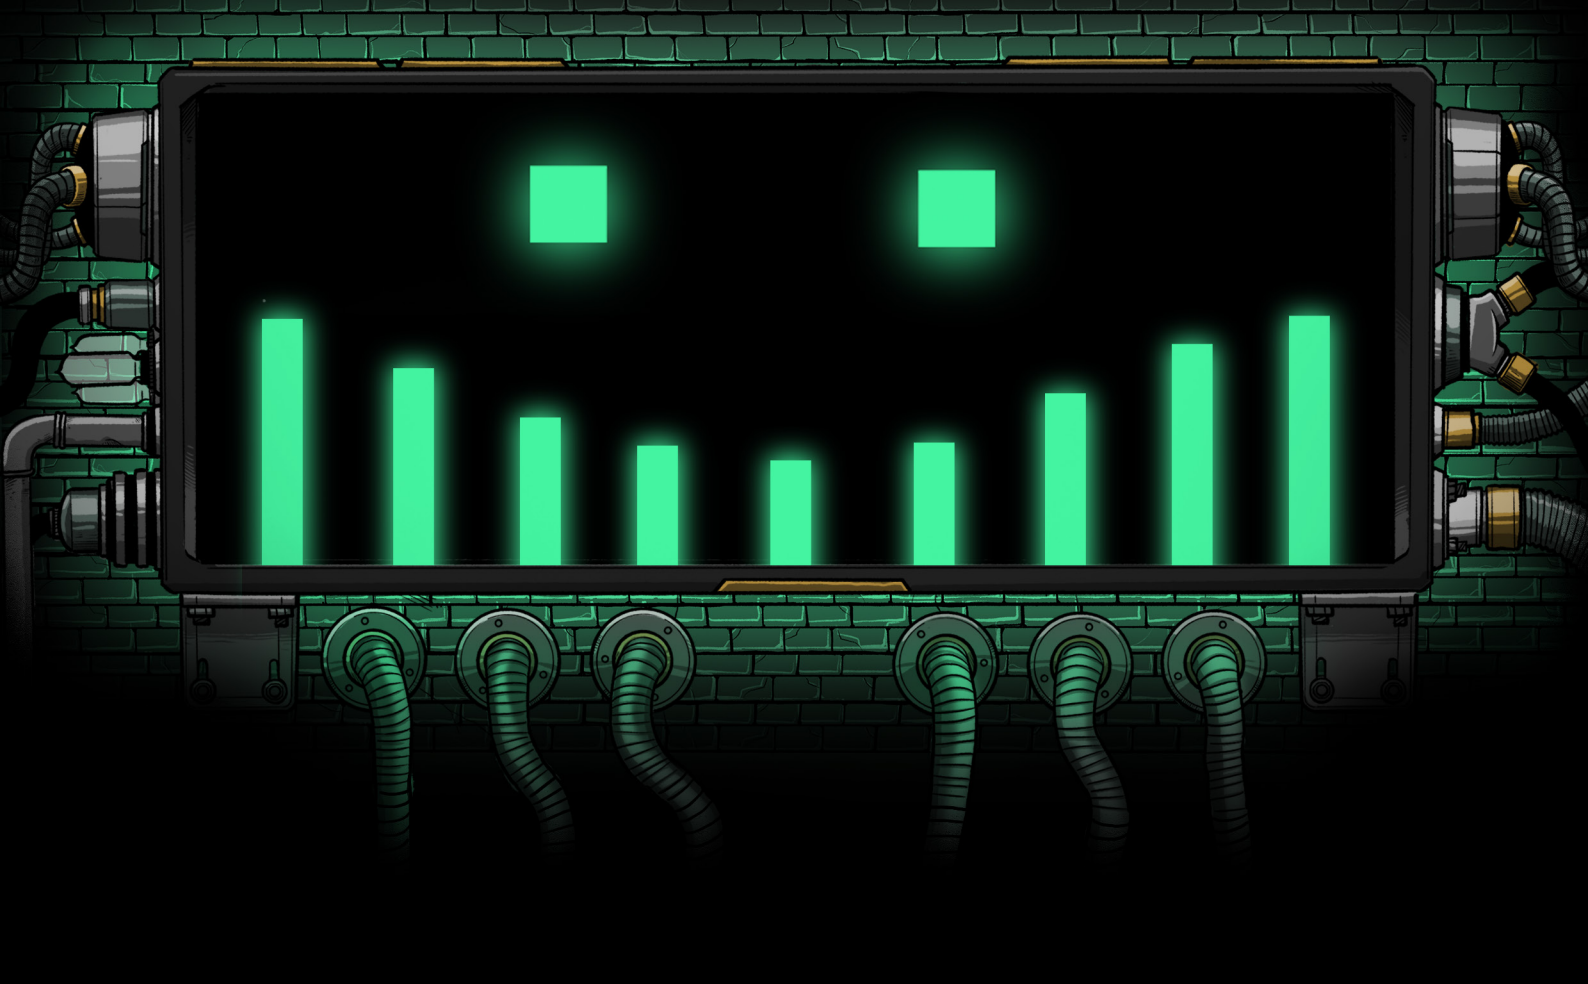

We are the BlueBots

Our goal is to **build a strong community** in which everybody shares what he or she can do best and support each other. We are developers, graphic designers and marketing specialists with many years of experience.

We will build a durable project with benefits for all supporters and holders. **We want to grow together.**

The BlueBots are creating **tangible benefits...**

By **minting a BlueBot**, you will become a member of our community and get **access** to an **exclusive NFT dashboard**.

Analytics and Alpha Suite

Together with our community we are building an **exclusive tool** that will help you make **decisions in your NFT trades**. We choose a community-driven approach.

Every member of our community will get the chance to sign up for **AAS Dev Pass**. This pass will lead you into the inner circle of the BlueBots. **We will co-develop AAS with all AAS Dev Pass holders.**

All **AAS Dev Pass** holders will be able to influence the direction of the product.

Our vision for AAS is a **monitoring solution for solana** as well as the **ethereum ecosystem**. We will provide data from all common marketplaces including historic data of floorprices. Also, we will track social media platforms to deliver intelligence on **trends and possible bluechip projects**.

We have the possibility to obtain data from every platform that provides us with an API interface.

In addition to this data base, we will also **share alpha knowledge** about the **scene and early projects** from our community and team with you.

We are committed to create a platform that will give everybody insights they can't get anywhere else.

All in one place.

Roadmap

1. AAS Community Development

AAS stands for Analytics and Alpha Suite. We will develop an innovative monitoring and analytics solution for the Solana and Ethereum ecosystems, including data from all common marketplaces and social media platforms. Unmatched insights. All in one place.

We'll apply a community-driven approach – sign up for the AAS Dev Pass. Get into the inner circle of BlueBots. Shape the product with us.

2. BlueBot Mint

BlueBots are little pieces of art, handdrawn and handpicked. They run on the Solana blockchain.

Supply and mint date tba soon. With a spot on the BlueList you are guaranteed to mint a Bluebot NFT.

3. Secondary Market Place Listing

For now, the goal is to get BlueBots on Magic Eden and Solanart. We'd like to focus sales on these two, since we believe they are the leading marketplaces.

4. AAS Rollout

As a BlueBot holder, you will get access to the AAS solution. This will allow you to base your decisions on NFT trades on unique insights driven by data and analytics.

5. BlueDot Airdrop

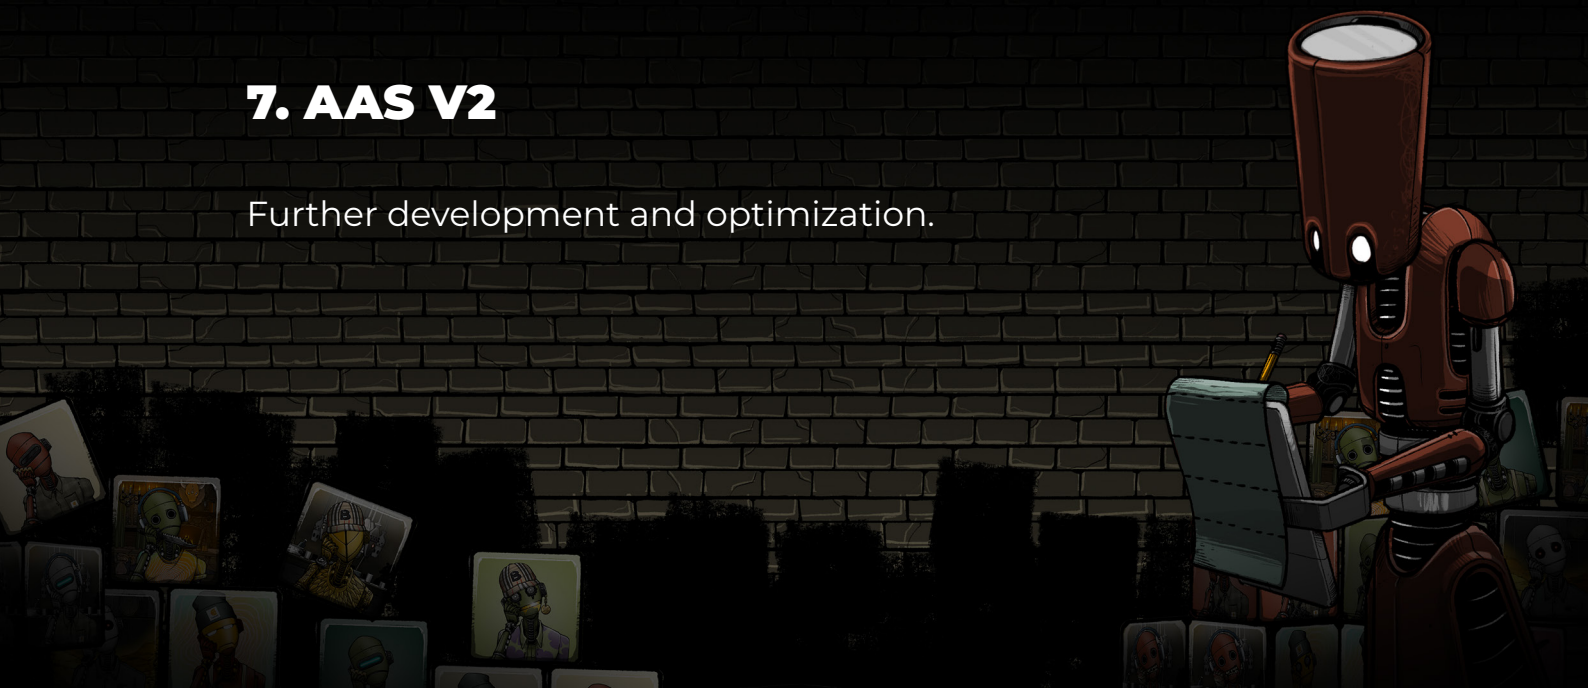

We're committed to give back to the community. Stay tuned!

6. 3D Project

High quality 3Dpfps, crafted by our CGI professional, rigged and ready for the metaverse.

7. AAS V2

Further development and optimization.

Let's be Blue together
